Kitchen Chemistry

Ryhope Infant School Academy

We are starting a 10 week course on Wednesday 15
January 2020 to Wednesday 25 March 2020 at
1.00pm to 3.00pm

Discover how to develop fun, free, exciting and educational science based activities for you and your child to enjoy and share. Have you ever wondered what makes bread rise? Why do bath bombs fizz? Why does popping candy pop? And much, much more

We also offer a free educational visit to Sunderland University, at the end of the course, where you and your child will experience hands on science experiments

Please send your reply slip to the school office by Friday 10 January 2020 as places are limited to 8 pupils.
