First weigh out and mix together the flour, salt and cream of tartar.

Next pour in the oil and give the mixture a good stir.

Add your food colouring, the more you add the stronger the colour you will get.

Next with your grown ups help add the boiling water little by little, stirring the mixture until it becomes the consistency of dough.

When you have your dough, knead it (be careful as it may still be hot), and share it out with your family.

Store your playdough in an airtight container to use it over and over again!
