

Reception Learning Grid

Week beginning 19th October 2020

	Morning	Letters and Sounds	Afternoon
Monday	As children enter school they will see items like, a witches sock, cauldron, magic wand, broomstick and some spiders. Who could have been in our room? Where could they have come from? We will add pictures to DoJo to show you the items! Activity: draw a picture of who they think left they items	Today we are learning 'h' Use the resources we have sent you via Active Learn Bug Club	Today we are exploring our 'teacher-made' pumpkin patch, we will look at the sizes, colours, patterns, shapes. We have added a pumpkin activity sheet that you could do at home.
Tuesday	Miss Bent is delivering us a parcel containing a book this morning. The book is Spookyrumpus. You can find the story here: https://www.youtube.com/watch?v=klvhmti-6sA When reading the book practise counting, pointing at one spook at a time. Activity: can you write a number and then draw spooks to match?	Today we are learning 'b' Use the resources we have sent you via Active Learn Bug Club	We will be exploring whether the pumpkins would float/sink. Children will predict, then have a go and explore this. Maybe you could do this at home and prepare a pumpkin for carving?
Wednesday	This morning a letter has been attached to the board, Winnie needs help, she has lost her spell book and she needs a spell to make her cat black again! Decide what we can put into the spell, have a go at writing some of the ingredients, or draw them if writing is tricky.	Today we are learning 'f' Use the resources we have sent you via Active Learn Bug Club	This afternoon we will be carving pumpkins. We will be practising our careful cutting skills. Perhaps you could do this at home and practise your cutting skills by making a witch (attached)
Thursday	Have another read of the story and practise careful counting of the spooks. Today we were sorting lots of spooks into sets then counting them. We have attached a sheet that you can chop up, place the spooks into sets then count how many of each type.	Today we are learning 'l' Use the resources we have sent you via Active Learn Bug Club	Winnie has left us some weird ingredients – 'blood of newt' (vinegar) 'ground bones' (bicarbonate of soda) Predict what we might think will happen! Put some bicarbonate into the carved pumpkin then pour in some vinegar.
Friday	Today we are going to write a letter to Winnie to send her the spell we have made for her. See if your grown up can help you to write a letter to Winnie with the spell/potion you made on Wednesday.	Today recap all of the sounds you know so far including those we have learned this week. Can you write some 3 letter words using the letters: satpinmdgock ck eurhbfl	This afternoon we are having a Halloween party in school, where children can come into school dressed up. If you're at home why don't you make a Halloween mask?
