Dear Penguin Pete,

I am a bit bored in the desert. I live with my very big family and our burrow in the sand is very crowded! Every time we go to find our food, I have to share it with all of my brothers and sisters. I wish I was allowed to keep all of my scorpions, beetles and fruit for myself! I love sitting in the sun to get warm. It is a good job that I am only skinny and do not have much fat because then I would be too hot! That is when I go into my burrow to get cool. I think it will be good for me to move house, and it looks super cool at the South Pole! I will have some peace and quiet and will not have to share my scorpions and beetles! Do you think I can live near you so that I have a friend?

Love From

Sunny The Meerkat
