5. Action Plan

1. Vision Statement:

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”. According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan must be reviewed every three years and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head. At Ryhope Infant School Academy the Plan will be monitored by the Head Teacher and evaluated by the relevant Governors’ committee. The current Plan will be appended to this document.

At Ryhope Infant School Academy we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

1) The Ryhope Infant School Academy Accessibility Plan has been developed and drawn up based upon information supplied by the Local Authority, and consultations with pupils, parents, staff and governors of the school. Other, outside agencies and specialists have also been consulted. The document will be used to advise other school planning documents and policies and will be reported upon annually in respect of progress and outcomes. The intention is to provide a projected plan for a three year period ahead of the next review date.

2) The Accessibility Plan is structured to complement and support the school’s Equality Objectives, and will similarly be published on the school website. We understand that the Local Authority will monitor the school’s activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty.

3) Ryhope Infant School Academy is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

4) The Ryhope Infant School Academy Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable. The Accessibility Plan contains relevant and timely actions to:-

- Increase access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils; (If a school fails to do this they are in breach of their duties under the Equalities Act 2010); this covers teaching and learning and the wider curriculum of the school such as participation in after-school

clubs, cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe;

- Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

5) The Ryhope Infant School Academy Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

6) Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

7) This Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Asset Management Plan
- Behaviour Management Policy
- Curriculum Policies
- Emergency Plan
- Health & Safety Policy
- Single Equality Plan
- School Prospectus
- School Improvement Plan
- Special Educational Needs Policy

8) The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the on-going period.

9) Equality Impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors' committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.

10) The Accessibility Plan will be published on the school website.

11) The Accessibility Plan will be monitored through the Governor Finance and Premises Committee

12) The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.

2. Aims and Objectives

Our Aims are:

- Continue to raise standards.
- To continue to promote access, opportunity and inclusion using best practice standards.
- To continue to promote partnership working with parents/carers, schools and other agencies to support greater accessibility.
- To provide clear information on facilities available within the school and local community for parents of children with SEN and disabilities so that they can plan their child's educational career in the same way that parents of children without SEN and disabilities are able to do.
- To ensure accessibility for employees, visitors and all pupils.
- To promote the requirements of the Disability Equality Duty.

As a school we will be addressing the following outcomes:

- Accessibility planning will continue to be focussed and structured.
- Level of staff expertise will continue to rise.
- Monitoring and evaluating the quality of information and materials for pupils, parents, staff and visitors.
- Continued improvement of the quality of the school environment.
- Continuing to widen curriculum access.
- Increasing the number of pupils attending mainstream provision.
- Continuing to raise levels of attainment and progress.
- Ensuring accessibility for all users of school facilities.
- Increasing the awareness, knowledge and understanding of staff in relation to the growing number of different medical conditions and syndromes that are being identified.
- Ensuring curriculum and provision is appropriate by using personalised teaching strategies based on termly assessments including PIVATS assessment as appropriate.
- The use of personalised Provision Mapping and tracking to ensure all needs are met.

3. Monitoring and Evaluation

The accessibility plan will be evaluated annually and monitored through scrutiny of the following:

- Individual Support Plans of those children on the Code of Practice, including those with EHCPs.
- School monitoring and evaluation procedures established in respect of capital management and curriculum provision.
- Training audit.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary. Attached is a set of audits of current provision and corresponding action plans which highlight how the school intends to address the priorities identified.

4. Access Audit

The school is a single storey building with wide corridors and several access points from outside. All areas are therefore on the ground floor. The hall is accessible to all. On-site car parking for staff and visitor includes a dedicated disabled parking bay. All entrances to the school are either flat or ramped and all have wide doors fitted. The main entrance features a secure lobby. There are disabled toilet facilities available fitted with a handrail and a pull emergency cord.

The school has internal emergency signage and escape routes are clearly marked.
